Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/531,449	Applicant(s) SHIGEYAMA ET AL.	
	Examiner MICHAEL K. COLLINS	Art Unit 3651	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/04/2009 has been entered.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Art Unit: 3651

4. Claims 1-4 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Hanley et al. (USP 4,133,421).

Regarding claim 1, Hanley et al. disclose a drug dispenser (see Figure 1) comprising:

- a drug case (30) for containing a plurality of drug packages (35) stacked in a vertical direction (see Figures 5-6), each of the plurality of drug packages being a rectangular package (35) having a flange at an upper side of the package, and
- a pushing mechanism (59) for pushing out from the drug case the lowermost drug package (35) in a horizontal direction (see Figure 5), the pushing mechanism including rails (32,33) for supporting the lowermost drug package (35) as it is moved in the horizontal direction by the pushing mechanism; and
- a guide member (41) immovably fixed on an inner surface of a side wall of the drug case separately from the pushing mechanism for supporting and guiding the flange of the second drug package when the lowermost drug package is being pushed out (see Figure 5), the guide member being provided in a pushing direction of the pushing mechanism.

Regarding claim 2, Hanley et al. disclose the drug dispenser of Claim 1, wherein the guide member (41) is provided on at least any one side of the pushing direction (see Figure 5).

Regarding claim 3, Hanley et al. disclose the drug dispenser of Claim 1, wherein the guide member (41) is extended toward a downstream side of the pushing direction (see Figure 5).

Regarding claim 4, Hanley et al. disclose the drug dispenser of Claim 1, wherein the guide member (41) supports and guides the flange of the drug package on an upstream side of the pushing direction (see Figures 5).

Response to Arguments

5. Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

6. Claims 5-10 are allowed.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
